

A Marketer's Dream!

We Have Something That Everyone Needs...
Nobody Has...
And They Can't Buy It Anywhere Else...

Detoxify In Seconds

Daily Detox Plus is the only micronized and activated natural zeolite suspension formula available on the market today. It works by producing a net negative charge that traps toxins and impurities, and then safely removes them from the body.

- Zeolite is a natural mineral that forms when volcanic lava and thick ash meet sea water.
- Once mined, zeolite is thoroughly cleaned and then MICRONIZED to the smallest particle size allowing it to penetrate throughout the body in seconds including the blood brain barrier.
- When ingested, zeolite attracts and binds toxic heavy metals, chemical elements, and free radicals inside its cage-like structure and is then excreted through the urinary tract.
- Daily Detox Plus is formulated using clinoptilolite, a type of zeolite that has been proven safe for long term use.
- Daily Detox Plus is the subject of more than 14 clinical studies. A whitepaper is available in your NAVAN back office under resources.

WHY DAILY DETOX PLUS IS NECESSARY

HELPS SAFELY REMOVE HEAVY METALS like mercury, cadmium, arsenic, lead, cesium, strontium, aluminum, uranium and others from your tissue and cells.

MAY DECREASE INFLAMMATION by getting rid of bio-toxins, for instance black mold spores, and other chemicals.

ABNORMAL CELLS May inhibit and eliminate the replication of rapidly reproducing abnormal cells.

METABOLISM MAY reduce cellular body fat that toxins hold on to, while increasing basal metabolic rate and lean mass.

MAY HELP REMOVE BLACK MOLD SPORES. The black mold spores attach to the cage structure of our product and are carried out of the body.

NUTRIENT ABSORPTION Helps increase absorption of essential minerals, nutrients, super foods, supplements and essential oils and carry them to the right places.

ENERGY Helps increase overall energy, mental focus and clarity.

YOU MAY EXPERIENCE BETTER AND DEEPER SLEEP. Some customers reported that they started dreaming again.

HELPS REMOVE LYME SPIROCHETES. Customers report that their Lyme symptoms are less severe.

HYDRATION Helps increase cell hydration, cell membrane efficiency, vitality, and energy. When toxins hold on to and pollute our cells our cells are not able to hydrate normally.

MEMORY Helps increase electrical activity in the brain as well as increase memory.

FUTURE MOMS Helps eliminate exposure to chemicals and toxins that future moms may share with their unborn during pregnancy.

Replenish The Good

WHY RESTORE IS NECESSARY

Vitamins and minerals are essential nutrients the body doesn't make but are needed in small amounts to keep you healthy. We get these vitamins and minerals from the foods we eat and drink.

However, our foods no longer contain the same level of nutrition they once did (for a variety of reasons) which is why supplementation is so critical. Take a look at some of the minerals in RESTORE and how they help your body!

CHROMIUM: Insulin action, cardiovascular health, glucose tolerance factor.

MAGNESIUM: Activates over 300 enzymes, muscle contraction, nerve transmission, and calcium metabolism, essential for all life forms.

CALCIUM: Critical for many biological functions including nerve transmission, fat and protein digestion, muscle contraction, healthy bones and teeth, blood clotting, nerve functions and oxygen transport.

POTASSIUM: Nerve transmission, fluid balance, blood pressure, muscle contraction and many more functions.

SODIUM: Muscle contraction, fluid balance, cell life and potential and numerous other functions.

LITHIUM: May play a protective effect in treating sodium imbalances that contribute to atherosclerotic heart disease.

COPPER: Immune system, artery strength, helps form hemoglobin from iron and assists in metabolizing vitamin C and the oxidation of fatty acids.

IODINE: Needed by the thyroid hormone to support metabolism.

SULFATE: Protein synthesis, collagen cross-linking, bone and ligament structure.

IRON: Red blood cell formation, immune function.

CHLORIDE: A component of stomach hydrochloric acid. It helps regulate the body's acid base pH. Essential for hydrochloric acid production, which usually decreases with age.

MANGANESE: Bone development and growth, metabolism of fat and energy, reproductive system.

PHOSPHORUS: Bone formation, assistance in the breakdown of fats, proteins and carbohydrates.

SELENIUM: Immune stimulant, certain brain functions, antioxidant, protects against toxicity of heavy metals such as mercury, provides protection against cardiac damage.

ZINC: Enzymatic reactions, reproductive health, growth and development, immune functions.

MOLYBDENUM: Enzyme action.

SILICON: Enzyme action, connective tissue.

TIN: Enzyme action.

BORON: Essential for building strong bones, treating osteoarthritis, as an aid for building muscles and increasing testosterone levels, and for improving thinking skills and muscle coordination.

COBALT: Essential for formation of Vitamin B12 metabolism of fatty acids and synthesis of hemoglobin.

NICKEL: Immune regulation, brain development, DNA synthesis

ABOUT RESTORE

RESTORE FEATURES A CONCENTRATED BLEND OF 92 IONIC MINERALS AND TRACE ELEMENTS.

Considered nature's "superfood," marine phytoplankton is a whole food source that naturally features a full spectrum of amino acids, trace minerals, vitamins, enzymes, micronutrients, essential fatty acids, and antioxidants.

RESTORE BENEFITS

Helps **REGULATE THE BODY'S ACID-BASE PH**

(many diseases, illnesses, and bad bacteria thrive in an over acidic environment)

Replenishes **ELECTROLYTES**

Promotes a **HEALTHY IMMUNE SYSTEM**

Supports **CARDIOVASCULAR** health

Supports **DIGESTION**

Supports a healthy **METABOLISM**

Supports **LIVER** health

RESTORE FAQ

Q: WHO CAN USE RESTORE?

A: Everyone! Seniors, children, babies, animal/birds, and plants.

Q: IS RESTORE SAFE FOR PETS?

A: Absolutely! Just like humans, animals also encounter a decline of health when mineral deprived. Your pet will immediately feel the effects of RESTORE's nutritional and mineral nutrients in their diet and you will see their disposition, energy, and play improve. Recommendation: 1 drop for cats, 2 drops for dogs in their water.

Q: HOW DO I GET MY KIDS TO TAKE RESTORE?

A: Add RESTORE into drinks or meals of teens and children who generally are not getting adequate nutrition. It is tasteless and odorless.

Q: WHAT ABOUT PEOPLE WHO ARE HIGHLY SENSITIVE, HAVE ALLERGIES OR DIGESTIVE REACTIONS?

A: RESTORE is PURE! The ionic sea mineral base is derived from the deepest ocean waters in the purest areas around the globe. It is also the most natural and stable host for marine phytoplankton. This means our bodies will utilize the nutrients and minerals thoroughly with immediate absorption.

Improve Your HEALTH

CBD / BENEFITS

The human body has an endocannabinoid system that interacts with other major body systems. This system's main job is to maintain homeostasis and help the body adapt to outside stressors.

There are two main types of cannabinoids - endo (produced naturally within the body) and phyto (produced from a plant). Cannabinoids interact with almost every system in our bodies.

CBD is one type of phytocannabinoid. Phytocannabinoids mimic endocannabinoids, so they can act like a supplement, giving you a boost beyond what your body can produce.

CBD is a compound extracted from hemp.

CBD is NOT marijuana. Marijuana contains both THC and CBD. Unlike THC, CBD is not psychoactive, so you won't get "high."

CBD oil and other hemp-extracted products are federally legal for sale and use within the United States as stated in the 2018 Farm Bill.

Helps improve **MOOD/REDUCE STRESS**

Suggested products(s). Tincture, Gummies, Bath Bombs

May reduce **ANXIETY and DEPRESSION**

Suggested products(s). Tincture, Gummies

Promotes a sense of **RELAXATION & WELL-BEING**

Suggested products(s). Tincture, Gummies, Bath Bombs

May help alleviate **PAIN & INFLAMMATION**

Suggested products(s). Relieve Cream, Tincture, Gummies, Bath Bombs

May reduce **ACNE**

Suggested products(s). Renew Lotion

Powerful **ANTIOXIDANT** properties

Suggested products(s). Tincture, Gummies, Renew Lotion

May benefit **HEART HEALTH**

Suggested products(s). Tincture, Gummies

May help reduce symptoms of **CHRONIC SKIN CONDITIONS**

Suggested products(s). Renew Lotion

Promotes **SOUND SLEEP**

Suggested products(s). Dream

NAVAN CBD

1 Dropperful
2X Daily

1 Gummy
2X Daily

As Needed

NAVAN CBD products contain the highest premium cannabidiol currently legal in the United States.

Unlike traditional industrial hemp, the strain of industrial hemp used in **NAVAN PRODUCTS IS MUCH RICHER IN CBD AND OTHER BENEFICIAL CANNABINOIDs**, vitamins, and amino acids.
