

Approach Scripts & Talking Points

The NAVAN Formula for Financial Independence: Your ability to get a large group of people to do a few simple things consistently over an extended period of time. Use and share NAVAN and teach many others to do the same.

If you are comfortable in saying it, they will be comfortable hearing it. An approach should be simple, fun and easy to do. You want to create enough curiosity so they will want to listen to a short presentation.

The basic approach:

Hi Mary ...I need your help! Would you do me a personal favor? I just listened to a short 6-minute-long audio presentation by a biochemist, and have created something I believe could change the whole healthcare industry! I know that you're interested in health, and you are a smart person. Would you listen to this and tell me honestly what you think about this? I'll send you a link and you can listen to it on your phone.

Then share: [Daily Detox in 6 minutes](#)

Some of the most successful people are people who simply do common things uncommonly well. Keep it simple, Sweetie! Historically, fast growing organizations use a simple tool to share the message. A good tool will do most of the work for you.

When you look at your business as a system, you will begin to do it differently. Work on your business as though you were going to replicate it. A system of integrated components that works in an absolutely predictable fashion. A good approach script that works and is easy for everyone to learn and do is the foundation of our system. Recruit and train others to do the same thing.

Success is predictable through consistently connecting with people and sharing

What are Zeolites?

Clinoptilolite is a naturally occurring zeolite. Millions of years ago, volcanoes erupted and poured lava into the sea. Over time this combination of lava, ash and ocean water created a mineral with a unique structure of tiny negatively charged crystal cages. The strong negative charge of clinoptilolite has been shown to entrap heavy metals and toxins, removing them safely and naturally from the body. Powdered Clinoptilolite has been used for centuries as a traditional remedy to promote overall health and wellbeing.

Zeolite has been used for hundreds of years as a digestive tract detox. A specific form of it has a crystalline cage-like structure with a strong affinity to heavy metals as well as aromatic pollutants. The uniqueness of the formula I've been using is the development of technologies that cleanse the raw material of all already existing heavy metals - which always naturally occur within the raw form, (activation) and then using a process to break it down into a sub-micron particle size, (micronization) allowing it to easily move into the bloodstream and directly cleanse the body. This is not just another 'detox' product, but something with powerful and unique benefits.

Did you know that our Daily Detox Plus and our RESTORE are meant to work together? We like to say it's our "out with the bad, in with the good"

- **Daily Detox Plus** helps your body safely remove heavy metals and other environmental toxins found lingering in your body.
- **RESTORE** provides your body with 92 trace minerals to restore electrolytes and balance your body's pH levels.

Inside of every problem lies an opportunity...*and the bigger the problem, the greater the opportunity! Health is the BIGGIE! Today we have a health crisis. The two most essential components affecting health are Deficiencies and Toxicity. There are many companies working in the nutritional arena, yet there are less than adequate solutions that can help detoxify the body. It's exciting to be at the very beginning and grow fast with something with a very amazing story. Body burden, heavy metals, toxins.... everyone knows they have this challenge. This is the only "trash-collector" available that picks up our body's trash right on-site! Using this is like taking a shower on the inside. A healthy and clean body can heal itself. This is a fun story to share, and people are consistently experiencing real dramatic benefits. NOW is a unique window of opportunity that I plan to seize and focus on.*

Master Detoxifier - Heavy metal toxins like lead and mercury are in the air you breathe and the food you eat. Over time these toxins build up in your body. Effects of these toxins on your body include fatigue, brain fog and a weak immune system leading to other potentially serious health problems. Daily Detox from NAVAN is the Jedi Master of detoxification.

Alkalizes the Body - Helps the body balance pH by providing alkalizing minerals and supporting kidney function. Foods like white bread, rice and anything processed as well as alcohol, pesticides, pollution and even stress cause acidity in the body. Daily Detox from NAVAN removes the acidity from your body thus boosting kidney health.

The Bottom Line - Daily Detox is a very effective natural supplement to bolster your health. Since we live in a world that's riddled with toxins everywhere we go, zeolite is needed more than ever. But not just any zeolite will do. Daily Detox from NAVAN is cleaned and micronized down to .39 microns making it the most effective zeolite product on the market.

Why cleanse when your body has a natural system for that? Because in this modern world your detoxification system simply can't keep up. It is constantly bombarded with toxins such as environmental pollutants, preservatives, pesticides, heavy metals, and industrial waste from our food, water, clothing, personal products, furniture, and more.

These toxins are stored in the body (some for up to 50 years!) creating a strain on the body's systems. And, the modern diet (typically void of proper hydration and nutrients) inhibits your natural system, even more, causing it to function like a clogged drain. The result? You feel sluggish, which affects your health, sleep, weight, mood, and more. Needless to say, long-term or chronic exposure to heavy metals and toxins can seriously affect your health.

When done correctly, getting your body clean and healthy can result in a host of positive effects.

A dose of Daily Detox™ brings balance back and helps the body function properly again. The micronized zeolite solution helps support the body's ability to naturally capture and eliminate toxins so you can have your health and energy back!
