

# DAILY DETOX PLUS

# DEFEND

YOUR

# BODY

According to the Environmental Protection Agency, we are exposed to more than 70,000 different toxins EVERY DAY. Toxins such as lead, cadmium, mercury, and arsenic.

They are in the air we breathe, the water we drink, and in our food and personal care products. The average adult uses 9 personal care products EACH day, with 126 unique chemical ingredients\*. Think about how many products you use before you even start your day - toothpaste, deodorant, soap, shampoo, make-up! And remember the delicious sushi you ate last week? Yeah, it most likely exposed you to mercury and arsenic.

DAILY DETOX Plus is the only micronized and activated natural zeolite suspension formula available on the market today. It works by producing a net negative charge that traps toxins and impurities, and then safely removes them from the body. DAILY DETOX Plus is formulated using Clinoptilolite, a Zeolite that has been proven safe for long term use and is the subject of more than 14 clinical studies.

### SUGGESTED USE

For the first month, you'll want to take a **"Detox Dose"** and take 10 drops four times daily with water. Then, you will move to a **"Maintenance Dose"** and take 10 drops two times daily - before breakfast and dinner with water. Repeat Detox dose every 6-12 months.

### BENEFITS

- Helps safely remove heavy metals such as lead, mercury, arsenic, cadmium, and other toxins from the body without affecting vital levels of essential minerals.
- Helps remove pesticides, herbicides & dioxins from the body
- Supports the body's ability to trap free radical molecules, making it an effective antioxidant.
- The Original Zeolite Colloidal suspension for human health.
- Proprietary micronization and activation process.
- Supports immune system function.
- Helps balance the body's pH levels.
