

# Would You Take This Offer?

**Our business is pretty simple:** 1) Invite someone to take a look at our “stuff”. 2) Show them our “stuff”. 3) Gather a decision from them. 4) Make customers out of the ones that want to use the products. 5) Sponsor those who want to generate more cash flow 6) Teach those you sponsor to follow these same steps.

What if Avini Health just made this announcement: “We are going to pay you \$500 a day (Sundays off) for inviting at least one person a day to take a look at our “stuff”, for 24 months.

The only stipulation is that if you miss a day....”You’re Fired!”, and will never get this opportunity again.

Subtract out 12 Sundays, and that’s 353 days x \$500 or \$176,500 a year. They didn’t say you had to sell anything, or sponsor anyone....just invite people to take a look. Would you/Could you...Do it?

**The Secret Formula:**  $1 + 2 + 3 + 72 \times 2 + 2 = \$3,205!$

1 = One person a day invited to take a look (6 per week)

2 = Give two presentations a week (2 out of 6 invites)

3 = Get three enrollments per month (3 out of 8 presentations)

72 = Seventy two enrollments in 24 months (36 per year)

2+2 = Two years enrolling as above + Two years of Leadership (Fanning the “Fire”)

On average, if you duplicated the above, in five years.....you should be earning around \$10,000 a month, maybe less and maybe a lot more!

If you earn \$10,000 a month in passive, residual income..... you have an asset worth around \$2 Million. That means that each of the 624 people you invited in the first two years gave you an asset value of \$3,205 !!

(To generate \$10,000 a month in passive income in Real Estate for example....you would need to have rentals valued at around \$2 Million and paid for.)

Top income earners are simply getting paid each month for the invitations they made in the first two years in the business.

Do you realize what you have? Can you see the leverage in working 10 hours a week, then having each member of your team working 10 hours a week. 30 on your team means you are getting paid each week on over 300 hours of effort! Geometric vs Linear income is the “8th Wonder of the World!”

*Make a Decision, then take **Action!** You are more likely to behave yourself into thinking....than you are to think yourself into behaving.*

We appreciate and believe in you!
